

SYSAPI

SYSAPI

This command is used to invoke the SYSAPI utility.

This utility is used to locate Application Programming Interfaces (APIs) provided by Natural add-on products such as Entire Output Management (NOM).

For each API, the utility SYSAPI provides one or more example programs that contain a functional description of the API and that can be used to test the effect of the API.

For further information, see *SYSAPI - APIs of Natural Add-on Products* in the *Tools and Utilities* documentation.
