SYSPROD

This command is used to ascertain which products are installed at your Natural site. You are given information on your current Natural version, Natural selectable units and products running with or under Natural.

When you enter the command, a dialog displays information such as the following for each product installed:

- the product name,

- the product version (see also *Version* in the *Glossary*),

- the installation date and time,

- the product identification code (ID).

See also *Product Information* in *Using Natural Studio*.
