

SYSRPC Utility

The utility SYSRPC is used to maintain remote procedure calls.

The *SYSRPC Utility* documentation is organized in the following parts:

- Basic SYSRPC Functions
- Service Directory Maintenance
- Stub Generation
- Calculating Size Requirements
- Server Command Execution

Related Topics:

- For information on how to apply the SYSRPC utility functions to establish a framework for communication between server and client systems, refer to the *Natural Remote Procedure Call (RPC)* documentation.
- For explanations of expressions relevant to the SYSRPC utility, see also the section *Natural RPC Terminology* in the *Natural Remote Procedure Call (RPC)* documentation.
- The use of SYSRPC can be controlled by Natural Security: see *Protecting Utilities* in the *Natural Security* documentation.
- For information on Application Programming Interfaces provided to maintain remote procedure calls, see *Application Programming Interfaces for Use with Natural RPC* in the *Natural Remote Procedure Call (RPC)* documentation.
