

Natural Web Interface Installation and Configuration

The Natural Web Interface is installed in the course of the Natural for Windows installation procedure.

Note:

Only during the custom installation it is possible to install the Natural Web Interface. There you can specify the Natural Web Server Extensions you prefer.

Refer to the section Setup Type in the *Natural for Windows Installation documentation* for further details.

This document contains the following sections:

- **Configuring the Natural Web Interface** Describes how to configure the Natural Web Interface. If you are not familiar with a specific product, please read the corresponding installation instructions for more information.
- **Troubleshooting** Provides hints for known problems.
