

Installing the Natural Client Service Runtime Component

This section describes how to install the Natural client service runtime component. The following topics are covered:

- Dataset Summary
- Install the Natural Client Service Runtime Component

Dataset Summary

The following table describes the dataset required for the Natural client service runtime component:

Dataset Name	Job Name	Step Name
NBS nnn .NCSR	I061	1371

Install the Natural Client Service Runtime Component

To create a runtime environment for generated Natural clients, install this dataset in a non-Natural Business Services environment.

To install the Natural client service runtime component:

1. Load the NBS nnn .NCSR dataset as follows:

- Invoke the Natural INPL utility.
- Set work file 1 to the dataset name.
- Enter the following:

```
INPL
B
```

2. Run the CVCLICOP utility.

This utility copies the USR and Natural routines required by the Natural client service runtime component. The following table describes which libraries the applicable routines are copied from and to:

Routines	From	To
USR	SYSEXT library	SYSTEM library
NAT	SYSLIBS library	SYSTEM library
