5. Solved Problems

1. Installation

Natural Engineer v8.4.1.1 is a patch installation. To install the patch release the following tasks should be undertaken.

1.1 NEEALLWIN.sag file needs to be loaded using the Natural Utility SYSOBJH. This should be loaded over an existing NEE8410 installation.

1.2 If you are using the Natural Engineer Web Front End the NEA directory and subdirectories should be copied to your Natural Engineer installation directory and configured as detailed in the Natural Engineer Web Interface Installation and Configuration Guide for Windows.

2. Changes and Enhancements

The most recent product documentation, hotfixes and other useful information can be found in Empower.

3. Restrictions

n/a

4. Known Issues

4.1 Online Help

The online help was created at an early stage of the product freeze

phase. The most recent information is included in the Natural for Windows documentation which is provided in Empower.

If you encounter an error message when invoking online help for the first time, you probably require an update to your Windows help system.

Please check the following Microsoft web page for the appropriate update file:

[http://msdn.microsoft.com/en-us/library/windows/desktop/ms669985\(v=vs.85\).aspx](http://msdn.microsoft.com/en-us/library/windows/desktop/ms669985(v=vs.85).aspx)

4.2 Contents of the HTML Online Help may not be Displayed

The contents of the Natural HTML online help may not be displayed after installing security update 840315, security update 896358, security update 890175.

To solve this problem, please refer to the following pages:

<http://support.microsoft.com/kb/892675>

<http://support.microsoft.com/kb/896054>

5. Solved Problems

For the list of solved problems, see the file README.FIX.
