Preface

This documentation covers the following topics:

System Messages	Explains how to obtain information on system (error) messages.
Messages in Active Jobs Display	Lists the most important messages which may appear in the message column of the Active Jobs or All Active Jobs display.

1 About this Documentation

▪ Document Conventions	2
▪ Online Information and Support	2
▪ Data Protection	3

Document Conventions

Convention	Description
Bold	Identifies elements on a screen.
Monospace font	Identifies service names and locations in the format <code>folder.subfolder.service</code> , APIs, Java classes, methods, properties.
<i>Italic</i>	Identifies: Variables for which you must supply values specific to your own situation or environment. New terms the first time they occur in the text. References to other documentation sources.
Monospace font	Identifies: Text you must type in. Messages displayed by the system. Program code.
{ }	Indicates a set of choices from which you must choose one. Type only the information inside the curly braces. Do not type the { } symbols.
	Separates two mutually exclusive choices in a syntax line. Type one of these choices. Do not type the symbol.
[]	Indicates one or more options. Type only the information inside the square brackets. Do not type the [] symbols.
...	Indicates that you can type multiple options of the same type. Type only the information. Do not type the ellipsis (...).

Online Information and Support

Software AG Documentation Website

You can find documentation on the Software AG Documentation website at <http://documentation.softwareag.com>. The site requires credentials for Software AG's Product Support site Empower. If you do not have Empower credentials, you must use the TECHcommunity website.

Software AG Empower Product Support Website

If you do not yet have an account for Empower, send an email to empower@softwareag.com with your name, company, and company email address and request an account.

Once you have an account, you can open Support Incidents online via the eService section of Empower at <https://empower.softwareag.com/>.

You can find product information on the Software AG Empower Product Support website at <https://empower.softwareag.com>.

To submit feature/enhancement requests, get information about product availability, and download products, go to [Products](#).

To get information about fixes and to read early warnings, technical papers, and knowledge base articles, go to the [Knowledge Center](#).

If you have any questions, you can find a local or toll-free number for your country in our Global Support Contact Directory at https://empower.softwareag.com/public_directory.asp and give us a call.

Software AG TECHcommunity

You can find documentation and other technical information on the Software AG TECHcommunity website at <http://techcommunity.softwareag.com>. You can:

- Access product documentation, if you have TECHcommunity credentials. If you do not, you will need to register and specify "Documentation" as an area of interest.
- Access articles, code samples, demos, and tutorials.
- Use the online discussion forums, moderated by Software AG professionals, to ask questions, discuss best practices, and learn how other customers are using Software AG technology.
- Link to external websites that discuss open standards and web technology.

Data Protection

Software AG products provide functionality with respect to processing of personal data according to the EU General Data Protection Regulation (GDPR). Where applicable, appropriate steps are documented in the respective administration documentation.

I System Messages

2 System Messages

You can obtain additional information on the system messages that can appear in the Entire Operations version installed at your site.

➤ **To display the long text for a short system message**

- Enter the `HELP` direct command in the Command line for the message (here: `EOR0024 - Invalid Date Format`) received:

For example:

```
HELP MSG EOR0024
```

(`EORnnnn` for Entire Operations messages or `NATnnnn` for Natural messages)

Press `ENTER`.

A help screen appears with additional explanations and (if relevant) advice on how to correct an error:

```
19.06.15          ***** Entire Operations *****          16:09:16
                    Message Information
-----
EOR0024 - Invalid Date Format

The entered date is not in the format defined for
this installation, or
Year, month, or day are not in the correct value range.

Enter a valid date, or '?' to inquire the date format.

-----

Enter-PF1---PF2---PF3---PF4---PF5---PF6---PF7---PF8---PF9---PF10--PF11--PF12---
                    End
```

For further information on the `HELP` direct command, see the relevant section in the *Direct Commands* documentation.

> **To display a list of all messages using the Natural HELP utility**

- At a Natural command prompt (`NEXT` or `MORE`), enter the following system command and press `ENTER`:

```
HELP USER SYSEOR
```

for all Entire Operations (`EORnnnn`) messages,

Or:

```
HELP USER SYSSAT
```

for all System Automation Tools (`SAGnnnn`) messages,

Or:

```
HELP NAT
```

for all Natural (`NATnnnn`) messages.

A list of all system messages available in your current Entire System Management environment is displayed.

II Messages in Active Jobs Display

3

Messages in Active Jobs Display

This section lists the most important messages which may appear in the message column of the **Active Jobs** or **All Active Jobs** display. Most messages speak for themselves, but for some messages, an explanation is provided below.

Job activated

Explanation:	The job has been loaded to the active queue.
--------------	--

Cyclic job executed

Ended not ok - <job step> <condition code>

Explanation:	Job ended not OK. See condition code and job step (z/OS only).
--------------	--

Ended ok

Explanation:	The job terminated OK.
--------------	------------------------

HOLD in Spool Input Queue

Job disappeared from Spool Queue

Awaiting JCL Load

Job failed - JCL Error

Job not run - JCL Error

Job terminated - In Spool Output Queue

Explanation:	The job terminated, but has not been examined by the monitor yet.
--------------	---

Member Name missing

Waiting for submission

Job resubmitted

Explanation:	The job has been resubmitted, but has not been recognized by the monitor yet.
--------------	---

Start Time <date> <time>

Explanation:	The earliest start time for a job, unless its type is cyclic. Job waits.
--------------	--

Next Start Time <date> <time>

Explanation:	The earliest (next) start time for cyclic jobs. Job waits.
--------------	--

Latest Start <date> <time> exceeded

Submitted as job NNNN

Explanation:	The job was submitted successfully.
--------------	-------------------------------------

Job XXXX Waiting in Spool Input Queue**Cannot delete <in-condition>-<run-number>-<in-condition-reference> - in use**

Explanation:	The specified in-condition is used by at least one job.
--------------	---

Condition <in-condition> not satisfied**<condition> - <run> - <date> not found**

Explanation:	The job is waiting for one or more input conditions to be fulfilled.
--------------	--

User Rtn <user exit> called non-existent program**Recov. Network <network> not found****<Message from User Exit>**

Explanation:	A user exit can return a user-defined message text for the active jobs display. The message is displayed only if the user exit returns a "not OK" status.
--------------	---

Job variables not supported for <operating system>

Explanation:	Job variables are only allowed in the BS2000/OSD operating system.
--------------	--

JV <job variable> not matching**User Switch <BS2000 user ID / BS2000 user switch> is on**

Explanation:	The BS2000/OSD user switch is on, although it should not be on.
--------------	---

User Switches not supported for <operating system>

Explanation:	User switches are only allowed in the BS2000/OSD operating system.
--------------	--

User Switch <BS2000 user ID / BS2000 user switch> not on

Node NNN undefined

Explanation:	The execution node cannot be found in the node table.
--------------	---

Node NNN not active

Explanation:	The execution node is not active.
--------------	-----------------------------------

Prerequ. Check: Node NNN Error XXXX

Explanation:	An error occurred during node check.
--------------	--------------------------------------

NNN tape units required

Explanation:	There are not enough tape units available.
--------------	--

Resource <resource> undefined

Explanation:	The indicated resource cannot be found within the resource definitions.
--------------	---

Res. <resource> - requ. NNNNNNNNNN.NN avail. NNNNNNNNNN.NN

Explanation:	The requested amount of a specified resource exceeds the available amount of it.
--------------	--

Reference <in-condition-reference> Format Error NNNN

Explanation:	A format error for an input condition reference has been detected.
--------------	--

Prq. File Check - Symbol missing

Explanation:	The symbol to be replaced in the file name cannot be found in the symbol table.
--------------	---
