 2 Messages in Active Jobs Display 7

Preface

This documentation covers the following topics:

System Messages	Explains how to obtain information on system (error) messages.
Messages in Active Jobs Display	Lists the most important messages which may appear in the message column of the Active Jobs or All Active Jobs display.

I

System Messages

1 System Messages

You can obtain additional information on the system messages that can appear in the Entire Operations version installed at your site.

➤ To display the long text for a short system message

- Enter the **HELP** direct command in the **Command** input field for the message (here: EOR0024 - Invalid Date Format) received:

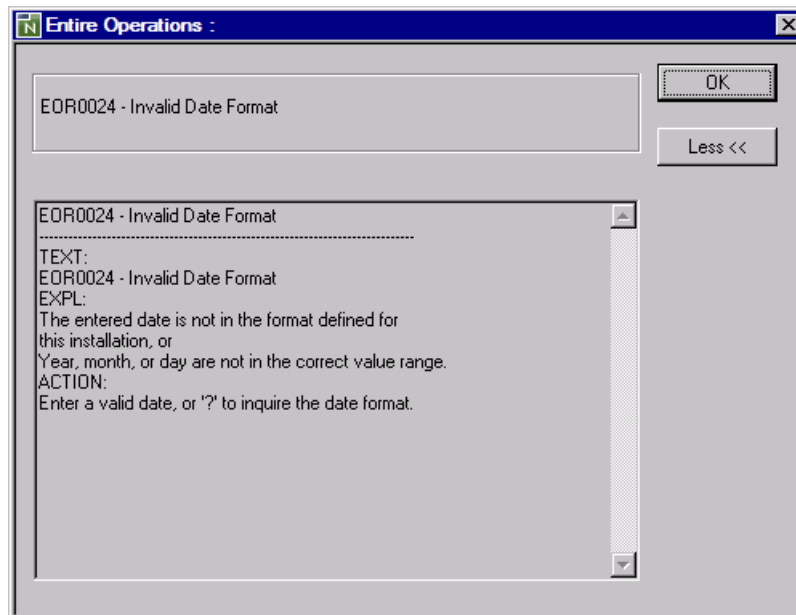

For example:

```
HELP EOR0024
```

(EOR $nnnn$ for Entire Operations messages or NAT $nnnn$ for Natural messages)

Press ENTER.

A help dialog opens with additional explanations and (if relevant) advice on how to correct an error:

For further information on the `HELP` direct command, see the relevant section in the *Direct Commands* documentation.

II

Messages in Active Jobs Display

2 Messages in Active Jobs Display

This section lists the most important messages which may appear in the message column of the **Active Jobs** or **All Active Jobs** display. Most messages speak for themselves, but for some messages, an explanation is provided below.

Job activated

Explanation:	The job has been loaded to the active queue.
--------------	--

Cyclic job executed

Ended not ok - <job step> <condition code>

Explanation:	Job ended not OK. See condition code and job step (z/OS only).
--------------	--

Ended ok

Explanation:	The job terminated OK.
--------------	------------------------

HOLD in Spool Input Queue

Job disappeared from Spool Queue

Awaiting JCL Load
