1 Super Natural Release Notes

This topic contains important information you must read before using Super Natural. You can find the installation and user documentation in the respective sections in this help.

Included in this topic is information about functionality that has been added, removed, deprecated, or changed for this product. Deprecated functionality continues to work and is supported by Software GmbH but may be removed in a future release. We recommend against using deprecated functionality in new projects.

This document covers the following topics:

Critical Changes	Lists the critical changes that require action or introduce important changes in the product behavior.

If you use or supply Super Natural in a language other than English or German, you must make source changes in certain language-dependent modules. Language-dependent modules can be, for example, maps, subprograms, or command processors.

2 About this Documentation

- Document Conventions 4
- Online Information and Support 4
- Data Protection 5

Document Conventions

Convention	Description
Bold	Identifies elements on a screen.
`Monospace font`	Identifies service names and locations in the format *`folder.subfolder.service`*, APIs, Java classes, methods, properties.
`Italic`	Identifies: Variables for which you must supply values specific to your own situation or environment. New terms the first time they occur in the text. References to other documentation sources.
`Monospace font`	Identifies: Text you must type in. Messages displayed by the system. Program code.
{ }	Indicates a set of choices from which you must choose one. Type only the information inside the curly braces. Do not type the { } symbols.
|	Separates two mutually exclusive choices in a syntax line. Type one of these choices. Do not type the | symbol.
[ ]	Indicates one or more options. Type only the information inside the square brackets. Do not type the [ ] symbols.
...	Indicates that you can type multiple options of the same type. Type only the information. Do not type the ellipsis (...).

Online Information and Support

Product Documentation

You can find the product documentation on our documentation website at **https://documentation.softwareag.com**.

Product Training

You can find helpful product training material on our Learning Portal at **https://learn.softwareag.com**.

Tech Community

You can collaborate with Software GmbH experts on our Tech Community website at **https://techcommunity.softwareag.com**. From here you can, for example:

- Browse through our vast knowledge base.
- Ask questions and find answers in our discussion forums.
- Get the latest Software GmbH news and announcements.
- Explore our communities.
- Go to our public GitHub and Docker repositories at **https://github.com/softwareag** and **https://hub.docker.com/publishers/softwareag** and discover additional Software GmbH resources.

Product Support

Support for Software GmbH products is provided to licensed customers via our Empower Portal at **https://empower.softwareag.com**. Many services on this portal require that you have an account. If you do not yet have one, you can request it at **https://empower.softwareag.com/register**. Once you have an account, you can, for example:

- Download products, updates and fixes.
- Search the Knowledge Center for technical information and tips.
- Subscribe to early warnings and critical alerts.
- Open and update support incidents.
- Add product feature requests.

Data Protection

Software AG products provide functionality with respect to processing of personal data according to the EU General Data Protection Regulation (GDPR). Where applicable, appropriate steps are documented in the respective administration documentation.

3 Critical Changes

- Change in Company Name 8
- Strategy Regarding the Legacy Platforms z/VSE and BS2000 8
- Report Type and Destination CON-NECT 8

This section lists critical changes in the current release that require action or introduce important changes in the product behavior.

Change in Company Name

The string “Software AG” has been replaced by “Software GmbH” or other text where it was used as a company name (for example, copyright information, error messages, hello screens, maps, etc. Where possible, the string was removed.

Strategy Regarding the Legacy Platforms z/VSE and BS2000

We would like to inform you that, after a detailed analysis & assessment, Software GmbH has decided to adjust its strategy regarding the Legacy-Unix platforms z/VSE and BS2000. With many of our customers already departed from or soon planning to depart these Legacy platforms due to cost and technical reasons, Software GmbH has decided to follow suit. This will allow Software GmbH to focus more resources on the remaining platforms and maximize the overall value to our customer base.

Please be assured that Software GmbH is prepared to offer assistance in planning and executing your rehosting from z/VSE and BS2000 platforms to an alternative platform.

Following the principles of our "A&N 2050+ Initiative", your rehosting project will be a high priority to Software GmbH. Our local Software GmbH teams will be happy to discuss any rehosting topic with you.

If you have any questions regarding the Adabas & Natural platform roadmap, please do not hesitate to contact Adabas & Natural Product Management (e-mail: A&N-ProdMgmt@softwareag.com).

Report Type and Destination CON-NECT

Report type CON-NECT and destination CON-NECT have been retired with this version of Super Natural.
