Notes:

Language packs are available for some products on all supported operating systems except Mac OS X.

This document will be updated whenever support for additional operating systems becomes available.

¹ Red Hat Enterprise Linux Server includes the Base Server and Advanced Platform

² EntireX and ApplinX support additional operating systems. See the Release Notes of these products.

³ For information about the webMethods SAP Process Monitoring Agent and webMethods SAP Adapter, which are components of webMethods Optimize for SAP, see the webMethods Adapter System Requirements.

⁴ webMethods AgileApps Cloud supports additional platforms: RedHat 6 is supported, as well as CentOS 7

⁵ Also supported on VMWare ESX 5.x.

⁶ Apama Support is very specific:
 - Win2012 is R2 only; Win8 is 8.1 only,
 - Additional OS are also supported.
 For details please refer to the product's documentation

⁷ Please contact your Software AG representative if you plan to install CentraSite on a Solaris CMT system.

⁸ The support is specific: Professional version of Windows 7 only and 10.21 version of MacOS

⁹ On HP-UX systems, shared memory drivers are currently not supported - for more information see the Universal Messaging installation guide.

¹⁰ Terracotta BigMemory supports the following platforms only for webMethods customers.

¹¹ Integration Agent is supported on the same platforms as Integration Server with the exception of Mac OS.

¹² Also supports CentOS 7, Ubuntu 16.04 and Debian 9. Additional platforms are also supported. For details please refer to the product's documentation

¹³ The supported versions of RHEL are 6.8, 7.2 and 7.3.

¹⁴ Supports Docker (kernel engine 3.10+) and Kubernetes. See Terracotta documentation for more details.

¹⁵ Software AG Universal Messaging has specific requirements not covered in this document, please see Universal Messaging Supported Platforms:
https://documentation.softwareag.com/universal_messaging/Universal_Messaging_10.2_Supported_Platforms.pdf

Zementis Server	10.2	✓			✓	✓	✓	

Notes:

¹ Oracle is also supported when implemented as RAC.

² If you experience any issues with the MySQL native driver, or with fixes, service packs, or patch-bundles for the driver, report them directly to the vendor. Software AG is not responsible for addressing driver-related issues.

³ Supported JDBC driver: 11.2.0.2.0 and higher

⁴ SQL Server Standard and Enterprise Editions are supported

Supported JDBC driver: 4.2.8112.100 and higher. It is mandatory with Java to use the sqljdbc42_jre8.jar driver.

⁵ These products support additional RDBMSs. For details please see the the respective product documentation.

⁷ Apama is only supported on Oracle 11g R2, not R1. Supports MySQL Community 5.6

⁸ webMethods Integration Server and webMethods Microservice Runtime support also Amazon Relational Database Service (Amazon RDS)

⁹ webMethods AgileApps Cloud supports Community Edition and Enterprise Edition for MySQL 5.6 and 5.7 for on-premise and Amazon RDS

¹⁰ Supports PostgreSQL 9.1 and MongoDB 3.2.9

Notes:

¹ IE and Chrome does not support Process Modeling. Only Firefox

Please refer to Disclaimer on last page!

Supported Application Servers

Unless otherwise mentioned all products only support the application server that is included with the suite. For additional application server support please contact your Software AG representative.

Additional Application Servers		Apache Tomcat				IBM WebSphere			Jboss			Jetty	Oracle BEA Weblogic		Glassfish
Version		7.0	8.0	8.5 (Software AG Runtime)	9.0	7.0	8.0	8.5	AS 7.1	EAP 7.1	EAP 6.1	9.0	10.3	12.1	V3.1
Apama Server ^{*1}	10.2			✓				✓						✓	
Terracotta BigMemory	4.3.5	✓	✓	✓		✓	✓	✓	✓		✓	✓	✓	✓	✓
Terracotta Web Sessions	4.3.5	✓	✓	✓		✓	✓	✓	✓		✓	✓	✓	✓	✓
Universal Messaging ^{*2}	10.2					✓		✓		✓	✓				
Zementis Server	10.2	✓	✓	✓	✓			✓							

Notes:

¹ Application server support applies to Apama dashboards.
Application servers and client web browsers must be using JRE 8 to access Web Start dashboards.

² Refers to the support application server for the JMS Resource Adapter.
The Universal Messaging Resource Adapter is explicitly tested and certified on the platforms specified in the table above, although it should work with other platforms.
Software AG will take support issues on other platforms, but will try to reproduce issues on one of the supported platforms.
If the issue is not reproducible, then the customer should report this to their application server vendor.

EntireX and ApplinX support additional Application Servers.
See the Release Notes of these products.

Please refer to Disclaimer on last page!

Disclaimer:

Unless otherwise specified in our documentation, we encourage installing the latest service packs, patch-bundles and fixes for the supported operating systems and products if those are recommended by the respective vendor. Please report defects resulting from 3rd party supplied fixes, patches or service packs to the vendor directly.

Except where otherwise specified by a special arrangement, we support our software operation only on the supported Linux distributions mentioned above. Customers may run Software AG products on Linux distributions like Oracle Linux and other Linux distributions that are stated to be compatible with the Linux distributions supported by Software AG products. If they encounter an issue that might be related to Software AG products, Technical Services may ask the customer to reproduce the issue on the Red Hat or SUSE distributions that are supported before analyzing the issue further.

Software AG tests its software against specific versions of operating systems and supported products (RDBMSs, JDKs, browsers, application servers, directory servers) and not specifically against all possible combinations of patches, fixes and hardware that might comprise that platform. Therefore, Software AG may not use the exact same versions of fixes, patches or service packs for operating systems and supported software products, when troubleshooting a customer issue.
