Entire Net-Work

Entire Net-Work 7.9 Release Notes

Version 7.9.2

October 2022

ADABAS & NATURAL

Table of Contents

1 Entire Net-Work 7.9 Release Notes

This document provides release notes for the Entire Net-Work 7.9 release. It is organized as follows:

Enhancements	Describes the enhancements made to Entire Net-Work in Version 7.9.
Entire Net-Work 7 Compatibility	Describes compatibility issues between Entire Net-Work 7 and other products.
End of Maintenance	Describes the maintenance plans for prior Entire Net-Work releases.
Migration Considerations	Lists things to consider when migrating from earlier releases of Entire Net-Work
Documentation and Other Online Information	Describes the documentation and other online information you can obtain for this release of Entire Net-Work.

2   About this Documentation

Document Conventions

Convention	Description
Bold	Identifies elements on a screen.
`Monospace font`	Identifies service names and locations in the format `folder.subfolder.service`, APIs, Java classes, methods, properties.
Italic	Identifies: Variables for which you must supply values specific to your own situation or environment. New terms the first time they occur in the text. References to other documentation sources.
`Monospace font`	Identifies: Text you must type in. Messages displayed by the system. Program code.
{ }	Indicates a set of choices from which you must choose one. Type only the information inside the curly braces. Do not type the { } symbols.
|	Separates two mutually exclusive choices in a syntax line. Type one of these choices. Do not type the | symbol.
[ ]	Indicates one or more options. Type only the information inside the square brackets. Do not type the [ ] symbols.
...	Indicates that you can type multiple options of the same type. Type only the information. Do not type the ellipsis (...).

Online Information and Support

Product Documentation

You can find the product documentation on our documentation website at **https://documenta-tion.softwareag.com**.

In addition, you can also access the cloud product documentation via **https://www.software-ag.cloud**. Navigate to the desired product and then, depending on your solution, go to "Developer Center", "User Center" or "Documentation".

Product Training

You can find helpful product training material on our Learning Portal at **https://knowledge.soft-wareag.com**.

Tech Community

You can collaborate with Software AG experts on our Tech Community website at **https://tech-community.softwareag.com**. From here you can, for example:

- Browse through our vast knowledge base.
- Ask questions and find answers in our discussion forums.
- Get the latest Software AG news and announcements.
- Explore our communities.
- Go to our public GitHub and Docker repositories at **https://github.com/softwareag** and **https://hub.docker.com/publishers/softwareag** and discover additional Software AG resources.

Product Support

Support for Software AG products is provided to licensed customers via our Empower Portal at **https://empower.softwareag.com**. Many services on this portal require that you have an account. If you do not yet have one, you can request it at **https://empower.softwareag.com/register**. Once you have an account, you can, for example:

- Download products, updates and fixes.
- Search the Knowledge Center for technical information and tips.
- Subscribe to early warnings and critical alerts.
- Open and update support incidents.
- Add product feature requests.

Data Protection

Software AG products provide functionality with respect to processing of personal data according to the EU General Data Protection Regulation (GDPR). Where applicable, appropriate steps are documented in the respective administration documentation.

3   Enhancements

This release of Entire Net-Work introduces management of Servers and Kernels via Adabas Manager Version 8.5 or higher. Administration via Adabas Manager now replaces the management of Entire Net-Work via the older System Management Hub based Entire Net-Work Administration product. For details on the usage of Adabas Manager to administer Entire Net-Work, please see *Using Adabas Manager*.

This release also includes bug fix roll-ups from previous versions.

Last-minute information on this release is available in the *ReadMe* file.

After installation, please visit the Software AG Empower Product Support website at **https://empower.softwareag.com** to check for and apply any available fixes to Entire Net-Work 7.9.

Fixes to Entire Net-Work Server are delivered using the Software AG Update Manager. For more details, see section *Installing and Uninstalling Entire Net-Work Server* of this documentation.

4 Entire Net-Work 7 Compatibility

This chapter describes the Entire Net-Work 7 compatibility issues.

Adabas and Entire Net-Work Version Compatibility

This release is compatible with all versions of Adabas and Entire Net-Work on LUW and mainframe platforms currently supported by Software AG.

You can find support information relative to current and previous releases by visiting Software AG's Empower web site at **https://empower.softwareag.com**.

Adabas Database Compatibility

Entire Net-Work 7 supports both local and remote Adabas databases. Software AG recommends the use of the latest release of Adabas for LUW when installing Adabas and Entire Net-Work together.

Adabas Client for Java and Adabas RESTful server Compatibility

From version 7.9 onwards,Entire Net-Work is not compatible with Adabas Client for Java and Adabas RESTful Server.

5 End of Maintenance

For information on how long a product is supported by Software AG, access Software AG's Empower web site at *https://empower.softwareag.com*.

Log into Empower. Once you have logged in, you can expand **Products** in the left menu of the web page and select **Product Version Availability** to access the Product Version Availability application. This application allows you to review support information for specific products and releases.

6 Migration Considerations

Please note that you cannot use the System Management Hub (SMH) agents installed with an earlier version of Entire Net-Work Client or Entire Net-Work Server to manage this version of Entire Net-Work Client or Entire Net-Work Server. You must use the Adabas Manager (AMN).

The current version of Entire Net-Work Client and Entire Net-Work Server configuration files are compatible with Entire Net-Work Client Version 1.7 or Entire Net-Work Server Version 7.8.

Configuration files from previous versions can be copied into the new installation's */config* directory.

7 Documentation and Other Online Information

The following online resources are available for you to obtain up-to-date information about your Software AG products:

Software AG Documentation Website

You can find documentation for all Software AG products on the Software AG Documentation website at *https://documentation.softwareag.com*. This site requires Empower credentials. If you do not have an Empower user ID and password yet, you will find instructions for registering on this site (free for customers with maintenance contracts) or you can also use the TECHcommunity website to access the latest documentation.

Software AG TECHcommunity

You can find documentation and other technical information on the Software AG TECHcommunity website at *http://techcommunity.softwareag.com*. You can:

- Access product documentation, if you have TECHcommunity credentials. If you do not, you will need to register and specify "Documentation" as an area of interest. If you already have TECHcommunity credentials, you can adjust your areas of interest on the TECHcommunity website by editing your TECHcommunity profile. To access documentation in the TECHcommunity once you are logged in, select **Documentation** from the **Communities** menu.

- Access articles, demos, and tutorials.

- Use the online discussion forums, moderated by Software AG professionals, to ask questions, discuss best practices, and learn how other customers are using Software AG technology.

- Link to external websites that discuss open standards and web technology.

Software AG Empower Product Support Website

You can find product information on the Software AG Empower Product Support website at *https://empower.softwareag.com*. This site requires Empower credentials. If you do not have an Empower user ID and password yet, you will find instructions for registering on this site (free for customers with maintenance contracts).

To submit feature/enhancement requests, get information about product availability, and download products and certified samples, select **Products & Documentation** from the menu once you are logged in.

To get information about fixes and to read early warnings, technical papers, and knowledge base articles, select **Knowledge Center** from the menu once you are logged in.
