

# webMethods AS/400 Adapter 6.0.1 Readme

## January 2006

This file contains important information you must read before using webMethods AS/400 Adapter 6.0.1. You can find additional information about webMethods AS/400 Adapter 6.0.1 on the [Software AG Documentation Web site](#). In addition, the following suite-related information is also available at that location:

Product Documentation (includes installation and upgrade information)  
System Requirements Documentation

You can find the following information in the Products section of the [Empower Web site](#):

Security Information  
Globalization Information

## 1.0 Critical Information

This section lists the critical issues that were known when this readme was published. For critical information found later, go to the Knowledge Center portion of the [Empower Product Support Web site](#).

None.

## 2.0 Known Issues

This section lists issues that were known when this readme was published. For known issues found later, go to the Knowledge Center portion of the [Empower Product Support Web site](#).

1-11CXWR

The connection pool becomes empty regardless of the number specified in the Minimum Pool Size connection management property.

The Minimum Pool Size (minmumPoolSize) property specifies the minimum number of connection objects that remain in the connection pool at all times. When the adapter creates the pool, it creates this number of connections. However, the AS/400 Adapter 6.0.1 creates the minimum number of connections in the pool only when it initializes the pool for the first time. As the connections expire due to inactivity, the adapter does not take care of retaining the minimum number of connections in the connection pool. But when an adapter service requests a connection, the connection pool creates a new connection and provides it to the requester.

## 3.0 Usage Notes

This section highlights product limitations and changes to product behavior introduced in this release.

If you expect to display non-English data in your webMethods tools, make sure an appropriate font is installed in your operating environment. If you see hollow boxes or black squares where you expect to see non-English data, modify your JRE font.properties file to reference an appropriate font. For information on modifying your font.properties file, go to Oracle's Java website. For instructions, see:

<http://docs.oracle.com/javase/1.4.2/docs/guide/intl/fontprop.html>

[http://www.unicode.org/help/display\\_problems.html](http://www.unicode.org/help/display_problems.html)

## 4.0 Fixes and Enhancements

This section describes the fixes and enhancements included in AS/400 Adapter 6.0.1.

## **4.1 Fixes and Service Packs Included in This Release**

This section lists the fixes and service packs for previous releases that have been included into the current release. If only some issues in a fix or service pack have been included, that partially included fix or service pack is not listed here, and those issues are listed separately in [Section 4.2 Resolved Issues](#). See the Knowledge Center section of the [Empower Product Support Web site](#) for more information about fixes and service packs.

None.

## **4.2 Resolved Issues**

This section lists issues that were resolved in this release and that are not included in the fixes and service packs listed in [Section 4.1 Fixes and Service Packs Included in This Release](#). These issues might have been resolved in a fix or service pack that was not included in its entirety into this release, or they might have been resolved since the last fix or service pack was released.

None.

## **4.3 Enhancements**

For a detailed list of the enhancements included in AS/400 Adapter 6.0.1, see the Release Notes available on the [Software AG Documentation Web site](#).

## **4.4 Documentation Changes**

This section describes significant changes to the documentation, such as the addition, relocation, or removal of product guides, online help, chapters, or other major content.

- *webMethods AS/400 Adapter Installation and User's Guide 6.0.1* merges the documentation that was contained in *webMethods AS/400 Adapter User's Guide* and *webMethods AS/400 Adapter Installation Guide*.
- *webMethods AS/400 Adapter Installation and User's Guide 6.0.1* contains information on the installer changes as well as upgrade instructions. This guide is available from the [Software AG Documentation Web site](#) and can also be downloaded as part of the product documentation library from the webMethods Installer.

## **4.5 Terminology Changes**

This section lists terminology that has changed since the last full release of the product.

None.

## **4.6 *Deprecated or Removed Items***

This section lists product functionality that has been deprecated since the last full release of the product. Deprecated Built-In services and APIs are listed in the relevant sections that follow this one.

None.

## **4.7 *Added, Removed, Deprecated, or Changed Built-In Services***

This section lists Built-In services that have been added, removed, deprecated, or changed since the last full release of the product.

None.

## **5.0 Copyright Information**
