

webMethods EntireX Adapter Release Notes

The webMethods EntireX Adapter enables webMethods ESB (former webMethods Integration Server) to consume (IS outbound) as well as provide (IS inbound) EntireX RPC services. EntireX supports bidirectional integration with Natural, COBOL, PL/I, C and other applications on z/OS, z/VSE, BS2000/OSD and other platforms.

This chapter covers the following topics.

- What's New in Release 8.0
- Supported Platforms
- Platform and Version Support

What's New in Release 8.0

- The EntireX Adapter supports direct RPC connections to RPC servers and clients.
- The EntireX Adapter supports connections to ApplinX servers.
- Adapter services can dynamically change the connection.
- Adapter services to the EntireX Broker support conversational RPC.
- Connections to IMS Connect support COBOL syntax such as "OCCURS DEPENDING ON".
- An adapter can be monitored via adapter services.

- (1) This EntireX Adapter documentation refers to the following versions of webMethods ESB: 7.1; 8.0.
- (2) Only webMethods ESB v7.1 available on this platform.
- (3) Only webMethods ESB v8.0 available on this platform.
- (4) EntireX Broker Stub only.
- (5) No new release on this platform is currently planned. Please use EntireX version 7.1.1.
- (6) Supported with EntireX version 8.0 (as long as EntireX 8.0 is supported).

More information on supported webMethods ESB versions can be found in the *Prerequisites* section.

Platform and Version Support

Software AG provides support for the operating system versions supported by their respective manufacturers. Generally, when an operating system provider stops supporting a version of an operating system, Software AG will stop supporting that operating system version as of the next system maintenance (SM) level delivered by Software AG. Although it may be technically possible to run a new version of webMethods EntireX Adapter on an old operating system, Software AG cannot continue to support operating system versions that are no longer supported by the system's provider.

Please contact Software AG if the webMethods EntireX Adapter you require is not yet available on a particular platform. This also applies if the platform is not listed in the table above.
