1.0 Critical Information

The following list describes the critical issues that were known when this readme was published. For critical information found later, go to the Knowledge Center portion of the [Empower Product Support Web site](#).

None.

2.0 Known Issues

This section lists issues that were known when this readme was published. For known issues found later, go to the Knowledge Center section of the [Empower Product Support Web site](#).

- JDO-35
The following warning message is displayed in the Integration Server Administrator console when a connection is activated:
WARNING: Failed to add a notification listener for the MBean with name 'jde:instanceName=unknown.<integration_server_hostname>,metricName=jdenet_connection_pool,hostPort=<enterprise_server_port>,metricType=runtime,hostName=<enterprise_server_hostname>', notifications not be handled.
javax.management.InstanceNotFoundException: jde:targetType=jdeAgent

However, there is no impact on functionality and adapter notifications will be processed using the adapter connection.

There is currently no workaround for this issue.

- JDO-36
When using implicit transactions in a flow, services that use connections with LOCAL_TRANSACTION transaction type fail if any preceding service in the flow that uses the same connection throws an error. There is currently no workaround for this issue. Software AG recommends to mark transaction boundaries explicitly.
- JDO-37
When you create a new adapter notification and configure a Z-event, PeopleSoft EnterpriseOne Adapter returns an error while looking up the adapter resource domain values. There is currently no workaround for this issue.

3.0 Usage Notes

- For installation instructions for the adapter, see the *PeopleSoft EnterpriseOne XPI 8.94 PeopleBook: Installation and Configuration for EnterpriseOne Adapter* guide.
- After completing the installation and before beginning configuration, copy the following jar files from the <EnterpriseServer_Install>\System\Classes directory on the Oracle JD Edwards EnterpriseOne Server to the following locations within Integration Server:

IntegrationServer_directory\packages\PSFT_E1_Adapter\code\resources\EnterpriseOne

IntegrationServer_directory\packages\PSFT_E1_Adapter\code\resources\EnterpriseOne_811

List of jar files to copy:

- ApplicationAPIs_JAR.jar
 - ApplicationLogic_JAR.jar
 - Base_JAR.jar
 - BizLogicContainer_JAR.jar
 - BizLogicContainerClient_JAR.jar
 - BusinessLogicServices_JAR.jar
 - castor.jar
 - commons-codec-1.3.jar
 - commons-httpclient-3.0.jar
 - commons-logging.jar
 - Connector.jar
 - EventProcessor_JAR.jar
 - Generator_JAR.jar
 - JdbjBase_JAR.jar
 - JdbjInterfaces_JAR.jar
 - JdeNet_JAR.jar
 - jmxremote.jar
 - jmxremote_optional.jar
 - jmxri.jar
 - log4j.jar
 - ManagementAgent_JAR.jar
 - Metadata.jar
 - MetadataInterface.jar
 - PMApi_JAR.jar
 - rmissl.jar
 - Spec_JAR.jar
 - System_JAR.jar
 - SystemInterfaces_JAR.jar
 - xalan.jar
 - xerces.jar
 - xmlparserv2.jar
 - XTS.jar
-
- Software AG has not certified the adapter with version ERP 8.0/XE of the Oracle JD Edwards EnterpriseOne server.

- The reliable event connection compatible with versions 8.9 and 8.10 of the Oracle JD Edwards EnterpriseOne application release is not yet certified.
- Only real time events are certified to work with PeopleSoft EnterpriseOne Adapter. XAPI, Workflow and Z-events are not certified at this time.

4.0 Enhancements and Fixes

This section describes the enhancements and fixes included in webMethods PeopleSoft EnterpriseOne Adapter 8.97.

4.1 Fixes and Service Packs Included in This Release

- PSFT_E1_8-97_Fix2
This fix is released by Oracle for webMethods PeopleSoft EnterpriseOne Adapter version 8.97. The fix contains all the fixes and modifications made to the PeopleSoft EnterpriseOne 8.97 One-Off Adapter and released by Oracle by 10-Nov-2008.
- PSFT_E1_8-97_Fix3
This fix is released by Oracle for webMethods PeopleSoft EnterpriseOne Adapter version 8.97. The fix contains all the fixes and modifications made to the PeopleSoft EnterpriseOne 8.97 One-Off Adapter and released by Oracle by 01-Apr-2009.

Important!

- If you are installing webMethods PeopleSoft EnterpriseOne Adapter 8.97 on Integration Server 7.1 or later for the first time, these fixes are included in the adapter.
- If you are migrating from Integration Server 6.5 to Integration Server 7.1 or later, you must re-install the PeopleSoft EnterpriseOne Adapter 8.97 as described in the *PeopleSoft EnterpriseOne XPI 8.94 PeopleBook: Installation and Configuration for EnterpriseOne Adapter* guide, in order to have these fixes included in the adapter.
- If you are currently using webMethods PeopleSoft EnterpriseOne Adapter 8.97 on Integration Server 6.5, you can obtain these fixes from the Knowledge Center section of the [Empower Product Support Web site](#).

4.2 Resolved Issues

None.

4.3 Enhancements

None.

4.4 Documentation Changes

None.

4.5 Terminology Changes

None.

4.6 Deprecated Items

None.

4.7 Added, Removed, Deprecated, or Changed Built-in Services

None.

4.8 Added, Removed, Deprecated, or Changed APIs

None.
