

About this Documentation

This documentation gives an overview of the layout elements that are available in Application Designer.

The information is divided into the following parts:

●	Typical Page Layout	Describes the elements used for the layout of a page.
●	Working with Containers	Shows you how to work with containers - containers are areas on the page that can hold controls.
●	Working with Controls	Shows you how to work with the elements that are placed into containers - the controls.
●	Working with Grids	Explains what grids are and how to use them.
●	Working with Trees	Explains the basic types of trees and how to use them.
●	Working with Menus	Shows you how to arrange a number of functions in a structured way.
