# PINEDIT

The PINEDIT control is a web HTML editor which is a 2-in-1 editing solution, offering both web word processor and HTML expert modes.

The PINEDIT control comes as a demo version with an unlimited evaluation license. If you would like to use this editor without restrictions, please refer to the manufacturer's website for further information: *http://www.pintexx.com/*.

The XML layout definition is:

```
<rowarea name="Document" height="100%">
   <itr takefullwidth="true" height="100%">
     <pin:pinEdit textprop="editorString">
     </pin:pinEdit>
   </itr>
</rowarea>
```

The control always occupies 100% of the given width and height.

The Java code of the adapter is:

```
package com.softwareag.cis.test21;

import com.softwareag.cis.server.Adapter;

public class PineditAdapter extends Adapter
{
    // ----------------------------------------------------------------
    // properties
    // ----------------------------------------------------------------

    // property >editorString<
    String m_editorString;
    public String getEditorString() { return m_editorString; }
    public void setEditorString(String value) { m_editorString = value; }

    // ----------------------------------------------------------------
    // public usage
    // ----------------------------------------------------------------
```

```
    /**
     * Method is called by the CIS runtime on page load
     */
    public void init()
    {
        editorString = "<P style="MARGIN: 0px"><SPAN lang=EN-GB
                        style="FONT-SIZE: 10pt; FONT-FAMILY: Arial;
                        mso-fareast-font-family: 'Times New Roman';
                        mso-ansi-language: EN-GB; mso-fareast-language: DE;
                        mso-bidi-language: AR-SA"><STRONG style="FONT-SIZE:
                        16pt">The 2 in 1 web editing solution
                        </STRONG></SPAN></P><P style="MARGIN: 0px"><SPAN
                        lang=EN-GB style="FONT-SIZE: 10pt; FONT-FAMILY:
                        Arial; mso-fareast-font-family: 'Times New Roman';
                        mso-ansi-language: EN-GB; mso-fareast-language: DE;
                        mso-bidi-language: AR-SA"><SPAN lang=EN-GB
                        style="FONT-SIZE: 10pt; FONT-FAMILY: 'Courier New';
                        mso-fareast-font-family: 'Times New Roman'; mso-
                        ansi-language: EN-GB; mso-fareast-language: DE;
                        mso-bidi-language: AR-SA">Web Word Processor and
                        WYSIWYG HTML editor</SPAN></SPAN></P>";
    }

    /**
     * Method is called if the user presses the SAVE icon within the editor
     */
    public void pinEditOnSave()
    {
        // do something useful here
    }
}
```

The editor is bound to String property `editorString`. This property provides for the text that is displayed inside the editor.

For further information, see *pinEditDevelopersGuide.pdf* in the directory */cis/cispinedit/doc/*.
