Supported Operating System Platforms

For information about the webMethods SAP Process Monitoring Agent and webMethods SAP Adapter, which are components of webMethods Optimize for SAP, see the webMethods Adapter System Requirements.

*1 Includes the Base Server and Advanced Platform.

*2 EntireX and ApplinX support additional operating systems. See the Release Notes of these products.

*3 Only 32-Bit product version supported on Windows Server 2008 R1

*4 Only supported for development environments. Upgrade scenarios are not supported.

*5 Only supported on Windows Server 2008 R1

Language packs are available for webMethods products on all supported operating systems except Mac OS X.

The document will be updated whenever support for additional operating systems, e.g. i5/OS for webMethods 8.0, is available

Unless otherwise specified in our documentation, we encourage installing the latest service packs, patch-bundles and fixes for the supported operating systems and products if those are recommended by the respective vendor. Please report defects resulting from 3rd party supplied fixes, patches or service packs to the vendor directly.

Software AG tests its software against specific versions of operating systems and supported products (RDBMSs, JDKs, browsers, application servers, directory servers) and not specifically against all possible combinations of patches, fixes and hardware that might comprise that platform. Therefore, Software AG may not use the exact same versions of fixes, patches or service packs for operating systems and supported software products, when troubleshooting a customer issue.

Supported RDBMSs

webMethods products support their database components on all platforms on which the RDBMS vendor supports the RDBMS. All webMethods products come with the client component of the DataDirect Connect JDBC 4.0 driver. This driver is a Type 4 JDBC driver that does not have a server component. For information about the database components and the webMethods products that use them, see the *Software AG Installation Guide*.

		Oracle	DB2	SQL Server
		10g ^{*1}		
		11g (R1/R2 ^{*3}) ^{*1}	9.5 LUW	2005 / 2008
webMethods Integration Server	8.0	✓	✓	✓
webMethods BPEL	8.0	✓ ^{*2}		✓ ^{*2}
webMethods Trading Networks Server	8.0	✓	✓	✓
My webMethods Server	8.0	✓	✓	✓
webMethods Optimize	8.0	✓	✓	✓
webMethods Monitor	8.0	✓	✓	✓
webMethods Reporting	8.0	✓ ^{*4}	✓	✓
webMethods Process Engine	8.0	✓	✓	✓

For RDBMSs supported by ApplinX 8.1 please see the ApplinX product documentation.

^{*1} All versions of Oracle also supported when implemented as RAC.

^{*2} webMethods BPEL only supported on Oracle 10g and SQLServer 2005.

^{*3} for Oracle 11g R2 support a fix is needed. For further information please see the respective release announcement.

^{*4} only Oracle 11g R1 is supported

Unless otherwise specified in our documentation, we encourage installing the latest service packs, patch-bundles and fixes for the supported operating systems and products if those are recommended by the respective vendor. Please report defects resulting from 3rd party supplied fixes, patches or service packs to the vendor directly.

Software AG tests its software against specific versions of operating systems and supported products (RDBMSs, JDKs, browsers, application servers, directory servers) and not specifically against all possible combinations of patches, fixes and hardware that might comprise that platform. Therefore, Software AG may not use the exact same versions of fixes, patches or service packs for operating systems and supported software products, when troubleshooting a customer issue.

Supported JDKs

Operating System		Windows LINUX Solaris		HP-UX		AIX		Mac OS X
		Sun Java 1.5.0_20	Sun Java 1.6.0_19	HP Java 1.5.0.16	HP Java 1.6.0.06	IBM Java 1.5.0 SR10	IBM Java 1.6.0 SR5

webMethods Simulation Plugin	8.0	✓	✓					
webMethods Composite Application Framework	8.0	✓	✓					

The JDKs listed above are part of the webMethods 8.0 delivery except for Mac OS X.

For detailed information on specific JDK support for each webMethods product, see the *Software AG Installation Guide*.

Unless otherwise specified in our documentation, we encourage installing the latest service packs, patch-bundles and fixes for the supported operating systems and products if those are recommended by the respective vendor. Please report defects resulting from 3rd party supplied fixes, patches or service packs to the vendor directly.

Software AG tests its software against specific versions of operating systems and supported products (RDBMSs, JDKs, browsers, application servers, directory servers) and not specifically against all possible combinations of patches, fixes and hardware that might comprise that platform. Therefore, Software AG may not use the exact same versions of fixes, patches or service packs for operating systems and supported software products, when troubleshooting a customer issue.

Supported Browsers

webMethods products require one of these Web browsers:

Microsoft Internet Explorer 6.x, 7.x, 8.x, 9.x ^{*1}
Mozilla Firefox 3.x, 10 and higher ^{*2}

^{*1} For support of Internet Explorer 9 with CentraSite you must install ARG_8.1.2_Fix4 available on Empower.

^{*2} CentraSite only supports Firefox 3.x and 10. For support of Firefox 10 with CentraSite you must install ARG_8.1.2_Fix4 available on Empower.

Unless otherwise specified in our documentation, we encourage installing the latest service packs, patch-bundles and fixes for the supported operating systems and products if those are recommended by the respective vendor. Please report defects resulting from 3rd party supplied fixes, patches or service packs to the vendor directly.

Software AG tests its software against specific versions of operating systems and supported products (RDBMSs, JDKs, browsers, application servers, directory servers) and not specifically against all possible combinations of patches, fixes and hardware that might comprise that platform. Therefore, Software AG may not use the exact same versions of fixes, patches or service packs for operating systems and supported software products, when troubleshooting a customer issue.

Supported Directory Servers

These LDAP v3 compliant Directory Servers are supported.

		IBM Tivoli Directory Server 6	Microsoft Active Directory Domain Services	Novell eDirectory 8	OpenLDAP 2	Sun Java System Directory Server Enterprise Edition 6	Oracle Internet Directory 10.1	Apache Directory Server 1.5
CentraSite	8.0	✓	✓	✓	✓	✓		✓
