

webMethods Business Console 10.5 Readme

October 2019

This file contains important information you must read before using webMethods Business Console 10.5. You can find system requirements, user documentation, and installation and upgrade instructions on the [Documentation website](#) or the [TECHcommunity website](#). At those locations, you can also find suite-related security and globalization information.

Included in this file is information about functionality that has been added, removed, deprecated, or changed for this product. Deprecated functionality continues to work and is supported by Software AG, but may be removed in a future release. Software AG recommends against using deprecated functionality in new projects.

- SBP_9.9_Runtime_Fix2

5.0 Other Resolved Issues

This section lists the issues that were resolved in each release but were not part of the fixes listed in the previous section. A release is listed in this section only if changes occurred in that release.

Release 10.4

- SBP-3414

In Business Console, a user can set a task status to Error or Expired or Completed without any restriction.

This issue is now resolved.

- SBP-3559

When you log in to AgileApps Cloud as a Single Sign-On user and trigger a DBO process instance, the Business Console process page does not load and keeps refreshing.

This issue is now resolved.

- SBP-3737

On the Business Console Home page, for a task instance, the options under Set Status action appears outside of the browser.

This issue occurs when you set the Language/Locale as Arabic. Also, the Task Instances appear from Left to Right instead of Right to Left.

This issue is now resolved.

- SBP-3580

In Business Console, Administer Business Console page does not get displayed.

This issue is now resolved.

- SBP-3268

In Business Console, the guest user is able to access filesystem files and execute some REST services.

This issue is now resolved.

Release 10.3

- SBP-3245

Deletion of AppSpace does not happen from the expanded section of the AppSpace tab.

This issue is now resolved.

- SBP-3388
DBO process in work stream on the What's Happening Now tab displays the error 'Unable to retrieve Business Rules.'

This issue is now resolved.
- SBP-3400
Task Business data does not get populated in a gadget that is added to the task details page in Business Console.

This issue is now resolved.
- SBP-3404

Unable to delete the AppSpace created with the option, "Is Internal" YES.

This issue is now resolved.
- SBP-3439

When you create an AgileApps gadget in SoftwareAG Designer, the JsonObject error is displayed.
This issue is resolved.
- SBP-3539

When you delete a task instance ID in the Business Console, an internal server error is displayed.

This issue is now resolved.
- SBP-3544

When you trigger a process instance which has a case type object, and open and update the case record from step summary, case record displays an error.

This issue is now resolved.
- SBP-3552
Child Task in Business Console for the Task deployed on Integration Server is not displayed.

This issue is now resolved.

Release 10.2

- SBP-3144
If you select a DBO process in work stream on the What's Happening Now tab, and then click on the process instance, the details of process instance are not displayed.
This issue is now resolved.
- SBP-3027
Certain labels in the user interface are not translated.
This issue is now resolved.
- SBP-3007

PUT operation with GET operation on load does not allow modification of string table input values.
This issue is now resolved.

- SBP-3005
Duplicate values in a string list that is provided as an input to a service leads to no output values.
This issue is now resolved.
- SBP-2993
Mandatory content in document list and document reference list are not deployed properly.
This issue is now resolved.
- SBP-2984
In localized languages such as Japanese, when a user performs scheduled delegation, an error occurs because the AM/PM strings are translated.
This issue is now resolved.
- SBP-2974
Default values in a document list that are specified in Designer are not displayed in the user interface.
This issue is now resolved.
- SBP-2963
StringList data type has no user interface control.
This issue is now resolved.
- SBP-2899
In Business Console, when you click the Get Current Location button in the Business Data tab of the case details page, an error appears and the geographic location is not fetched.
This issue is now resolved.
- SBP-2856
Landing page takes a long time to render.
This issue is now resolved.
- SBP-2779
Pin and hide actions for tasks, processes, and cases are not functioning as expected.
This issue is now resolved.

Release 10.1

- SBP-1944
In Designer, when you change the title, description, and hosts for a gadget, it does not update the gadget that was previously added to an AppSpace in Business Console.
This issue is now resolved.
- SBP-2513
What's Happening Now tab does not consider the latest statuses of DBO models and displays incorrect status counts.
This issue is now resolved.
- SBP-2615
My webMethods Server log shows 'unable to load ResourceBundle, basename=caf.war.wm_socialbpm_defaulttask.AppResources' when accessing Monitoring >

Business > Tasks > DefaultTask > DefaultTask Inbox.

This issue is now resolved.

- SBP-2700
Masthead does not indicate the number of unaccepted tasks for roles. The icon on the masthead of Business Console indicates no unaccepted tasks even when unaccepted tasks are present for a role.
This issue is now resolved.

Release 10.0

- SBP-2345
User should be able to use unary operator (+) as part of expressions in gadgets using JavaScript.
This issue is now resolved.
- SBP-2966
For a new MWS user with view permissions, the dashboard with 'Activity streams' keeps displaying the loading page.
This issue is now resolved.
- SBP-1994
Upgraded 9.12 from 9.8 / 9.9 / 9.10 fails to load the WHN data as it fails to invoke user preference REST calls.
This issue is now resolved.
- SBP-2044
TLM Business Data saved search with values Boolean, Integer, Date, and Double are broken.
This issue is now resolved.
- SBP-2047
Business Console is not BiDi compliant.
This issue is now resolved.
- SBP-1952
Create case management gadgets in Business Console.
This issue is now resolved.

Release 9.12

- SBP-1816
Task details page modal should have inline scrolling.
This issue is now resolved.
- SBP-1808
To-do list people picker not launching for the second and subsequent items in the to-do list.
This issue is now resolved.
- SBP-1564
Certain issues with Action menu in Task Inbox gadget.
This issue is now resolved.
- SBP-1510
Unable to endorse users from Task Details page in Work Stream (within an AppSpace).

This issue is now resolved.

- SBP-1509
Configure columns not working in Work Stream (within an AppSpace).
This issue is now resolved.
- SBP-1502
Certain issues with Activity Stream comments in the Process Details page.
This issue is now resolved.
- SBP-1483
A loading image does not appear when reloading process list, but it appears when loading task list.
This issue is now resolved.
- SBP-1471
Task list management pagination has dependency on process list management pagination.
This issue is now resolved.

Release 9.10

- SBP-1648
Expert endorsements are not saved accurately in My webMethods Server with Microsoft SQL Server database.
If you endorse an expert with a rating in floating point value, the endorsement is not saved accurately in SQL Server database.
For example, a rating of 4.5 might be saved as 4.
This issue is now resolved.
- SBP-1359
URL to retrieve task business data is not accessible.
This issue is now resolved.
- SBP-1166
Clicking "Reset to default" for color theme returns incorrect selected theme in the REST URL.
This issue is now resolved.
- SBP-1116
Business Console does not display details of process instances belonging to version 9.5 or earlier.
Even after you migrate older process models that contain task steps to version 9.9, Business Console does not display these migrated processes.
To work around this issue, build and upload the 9.5 or earlier versions of process models in Software AG Designer, so that Business Console displays details of older processes that contain tasks.
This issue is now resolved.
- SBP-1109
Delegation of a task to multiple users for the first time is not working.
This issue is now resolved.
- SBP-1096
Task panels display in Work Stream toggles with "to-do -list" drop-down option.
This issue is now resolved.

6.0 Documentation Changes

This section describes significant changes to the documentation, such as the addition, relocation, or removal of product guides, online help, chapters, or other major content. A release is listed in this section only if changes occurred in that release.

Release 10.3

- Included information about Process with Case Task type step in *Working with webMethods Business Console* guide.
- Included information about REST Service timeout & Task details for assets created in Web Designer in *Working with webMethods Business Console* guide.
- Included information about AppSpace drop-down in *Developing Gadgets for Business Console* guide.

Release 10.1

- Included information about events for built-in gadgets in the *Working with Business Console* guide.

Release 9.12

- Included information about case management in the *Working with Business Console* guide.

Release 9.10

- Updated the *Working with Business Console* guide to include description for scheduling tasks, using My Calendar, using gadgets for creating dashboards, and using gadgets for customizing process details and task details.

7.0 Terminology Changes

A release is listed in this section only if changes occurred in that release.

Release 10.0

Old Term	New Term
Copy AppSpace	Clone AppSpace

Release 9.12

Old Term	New Term
Dashboard	AppSpace

Release 9.10

Old Term	New Term
Collaboration task or child task	Instant task

8.0 Added, Removed, Deprecated, or Changed Items

This section lists functionality, controls, portlets, properties, or other items that have been added, removed, deprecated, or changed. A release is listed in this section only if changes occurred in that release.

Release 10.1

Added Item	Description
Case gadgets	Built-in gadgets for cases in Business Console.
