Zementis Plugin Library ³	10.7	✓	✓										✓	✓	

Notes:

¹ Red Hat Enterprise Linux Server includes the Base Server and Advanced Platform.

² ApplinX and EntireX support additional operating systems. For more information, see the product Release Notes

³ Zementis also supports Ubuntu 16.04, Debian 9, and other platforms. For more information, see the product documentation.

⁴ Terracotta products support Docker (kernel engine 3.10+) and Kubernetes. For more information, see the product documentation.

⁵ Support for CentOS Linux 8, as a rebuild of RHEL 8, stops at the end of 2021. Due to unavailability of manufacturer support, Software AG discontinues support for CentOS 8 for all product versions, effective immediately.

For more details, see the "General Information and Disclaimers" section at the end of this document.

Zementis Plugin Library ⁸	10.7	✓							✓				✓				✓

Notes:

¹ Red Hat Enterprise Linux Server includes the Base Server and Advanced Platform. ⁷ Integration Agent is supported on the same platforms as Integration Server with the exception of Mac OS.

² ApplinX and EntireX support additional operating systems. For more information, see the product Release Notes.

⁸ Zementis also supports Ubuntu 16.04, Debian 9, and other platforms. For more information, see the product documentation.

⁹ API Portal supports version 7.4 of RHEL and CentOS.

³ Also supported on VMWare ESX 5.x.

¹⁰ Terracotta products support Docker (kernel engine 3.10+) and Kubernetes. For more information, see the product documentation.

⁴ Apama Support is very specific: Win2012 is R2 only; Win8 is 8.1 only. Additional OS are also supported. For more information, see the product

¹¹ Universal Messaging shared memory drivers are currently not supported. For more information, see the product documentation.

⁵ CentraSite on Solaris SPARC requires Oracle Solaris Version 11.3.25.3.0 (Support Repository Update 25, October 2017) or higher.

¹² You can install Software AG Platform Manager with Software AG Installer on zLinux, but the installation cannot be managed in Command Central.

⁶ BigMemory Max supports the listed platforms only when used with webMethods products.

¹³ Support for CentOS Linux 8, as a rebuild of RHEL 8, stops at the end of 2021. Due to unavailability of manufacturer support, Software AG discontinues support for CentOS 8 for all product versions, effective immediately.

For more details, see the "General Information and Disclaimers" section at the end of this document.

Supported Operating System Platforms for Software AG Designer

Software AG supports all listed operating systems and the following operating systems on premise: Windows Server 2012, 2016, and 2019, and Red Hat Linux Enterprise Server 7 and 8.

Operating System		Windows Server 2012 Datacenter and Standard Edition		Windows Server 2016 Datacenter and Standard Edition		Windows Server 2019 Datacenter and Standard Edition	Windows 8.x Pro and Enterprise	Windows 10 Pro and Enterprise	Suse Linux Enterprise Server		Red Hat Enterprise Linux		CentOS		macOS

Notes:

¹ Software AG also supports this OS on VMWare ESX 5.x

² Support for CentOS Linux 8, as a rebuild of RHEL 8, stops at the end of 2021. Due to unavailability of manufacturer support, Software AG discontinues support for CentOS 8 for all product versions, effective immediately.

For more details, see the "General Information and Disclaimers" section at the end of this document.

Supported Operating System Platforms							
Operating System		z/OS			z/VSE	BS2000	
Product Name	Version	2.2	2.3	2.4	6.2	10.0	11.0
Adabas Caching Facility	8.5.1	✓	✓	✓			
Adabas Delta Save Facility	8.5.1	✓	✓	✓			
EntireX	10.7	✓	✓	✓			
Adabas Enabler for zIIP	8.5.1	✓	✓	✓			
Adabas Online Services	8.5.1	✓	✓	✓			
Mainframe License Check ^{*1}	1.3.6	✓	✓	✓	✓	✓	✓

Notes:

¹ Part of product packages.

For more details, see the "General Information and Disclaimers" section at the end of this document.

Containers

Any OC-compliant container runtime should work. If you encounter an issue with your specific OCI runtime, you will be required to reproduce it on one of the supported platforms

Product Name	Type	Base Image						
	Version	CentOS 7.x	CentOS 8.x ⁵	UBI 7	UBI 8	Ubuntu 18.04	Alpine 3.10	Windows
Apama Server	10.7							
Applix	10.7	✓				✓	✓	
webMethods Integration Server ^{1,2}	10.7	✓		✓	✓	✓		
webMethods Microservices Runtime	10.7	✓		✓	✓	✓	✓	✓

webMethods API Gateway	10.7	✓						
webMethods API Portal	10.7						✓	
webMethods Microgateway	10.7	✓					✓	
CentraSite	10.7							
webMethods Tamino XML Server	10.7							
webMethods Process Engine	10.7							
webMethods Monitor	10.7							
Zementis Server	10.7						(✓) ⁴	

Notes:

¹ Integration Server support does not extend to the base image and any fixes or patches issued by the base Docker image provider.

² Can include layered webMethods Process Engine.

³ Can include layered webMethods Task Engine.

⁴ Supported Alpine version is 3.9.4.

⁵ Support for CentOS Linux 8, as a rebuild of RHEL 8, stops at the end of 2021. Due to unavailability of manufacturer support, Software AG discontinues support for CentOS 8 for all product versions, effective immediately.

⁶ Applies to webMethods Task Engine running in MyWebMethods Server.

For more details, see the "General Information and Disclaimers" section at the end of this document.

Orchestration

Any OC-compliant container runtime should work. If you encounter an issue with your specific OCI runtime, you will be required to reproduce it on one of the supported platforms

Product Name	Version	Orchestrators					
		Kubernetes	OpenShift	High Availability	Horizontal Scaling	Container upgrade strategy for major releases	Container upgrade strategy for fixes
Applix	10.7	✓	✓

Supported RDBMSs for On-Premises Software AG Products

Software AG products with version 10.7 that support DB2, MySQL Enterprise Edition, Oracle, PostgreSQL, or SQL Server use DataDirect Connect JDBC database driver 6.0.0 to communicate with those RDBMSs. Software AG provides updates for the DataDirect Connect JDBC database driver on Software AG Update Manager and Software AG Command Central. Software AG products that support MySQL Community Edition use the MySQL Community Edition database driver to communicate with the RDBMS. For more information, see the "Installing Software AG Products" guide.

Product Name	RDBMS	Oracle		PostgreSQL			DB2 LUW			SQL Server			MySQL	
	Version	12c	19c	10.x	11.x	13.20	10.5	11.1	11.5	2016	2017	2019	Community Edition 8.0	Enterprise Edition 8.0

webMethods Trading Networks	10.7	✓	✓	✓	✓	✓	✓	✓	✓	✓	✓	✓	✓	✓
webMethods CloudStreams Server	10.7	✓	✓	✓	✓	✓		✓	✓	✓	✓	✓	✓	
webMethods Process Engine	10.7	✓	✓	✓	✓	✓	✓	✓	✓	✓	✓	✓	✓	✓
webMethods Business Rules	10.7	✓	✓	✓	✓	✓	✓	✓	✓	✓	✓	✓		
webMethods OneData	10.7	✓	✓							✓	✓	✓		
webMethods Optimize	10.7	✓	✓	✓	✓	✓	✓	✓	✓	✓	✓	✓	✓	
webMethods Database Configuration	10.7	✓	✓	✓	✓	✓	✓			✓	✓	✓	✓	✓
Zementis Server	10.7									✓			✓	

Notes:

¹ Apama and MashZone NextGen products support additional RDBMSs. For more information, see the product documentation.

² Apama only supports MySQL 5.7 Community Edition.

³ MashZone NextGen supports JDBC drivers 11.2.0.2.0 and higher.

⁴ Integration Server and Microservice Runtime also support Amazon Relational Database Service (Amazon RDS).

⁵ Active Transfer Archive is not supported.

⁶ For on-premises, AgileApps Cloud supports Community Edition and Enterprise Edition for MySQL versions 5.6 and 5.7. For cloud, AgileApps Cloud supports Amazon RDS.

⁷ Reporting and Staging are not supported.

For more details, see the "General Information and Disclaimers" section at the end of this document.

Supported Application Servers for On-Premises Products

Additional Application Servers		Apache Tomcat				IBM WebSphere	JBoss/WildFly		Jetty	Oracle BEA Weblogic
Product Name	Version	7.0	8.0	8.5 (Software AG Runtime)	9.0	8.5	EAP 7.1	15.1	9.0	12.2
Apama Server ¹	10.7			✓		✓				✓
Applix	10.7			✓	✓			(✓) ³		
EntireX	10.7			✓	✓	✓				
BigMemory Max	4.3.8	✓	✓	✓		✓			✓	✓
BigMemory Web Sessions	4.3.8	✓	✓	✓		✓			✓	✓
Software AG Universal Messaging ²	10.7					✓	✓			
	10.7					✓	✓			✓
Zementis Server	10.7	✓	✓	✓	✓	✓				

Notes:

¹ Application server support applies to Apama dashboards.

² Refers to the supported application server for the JMS Resource Adapter. The Universal Messaging Resource Adapter is explicitly tested and supported on the platforms specified in the table above. Software AG will take support issues on other platforms, but will try to reproduce issues on one of the supported platforms. If the issue is not reproducible, report this to your application server vendor.

³ Support also extends to JBoss/Wildfly versions 8, 9 and 10.

⁴ webMethods Broker supports application servers based on Java EE standards by way of the Java EE Connector Architecture (JCA) 1.5 and JMS Application Server Facilities (ASF). webMethods Broker includes a resource adapter that works with JCA 1.5, uses the JMS client library, and integrates well with application servers. You can use webMethods Broker with application servers using either the JCA resource adapter or ASF. webMethods Broker is tested to work with Oracle WebLogic, JBoss enterprise editions, and IBM WebSphere application servers. Software AG Support will handle any issues pertaining to resource adapter operation with JCA 1.5 or ASF. For issues specific to the application server configuration or the JCA container of the application server, report those issues to the respective application server vendors.

For more details, see the "General Information and Disclaimers" section at the end of this document.

General Information and Disclaimers

This document will be updated whenever additional support becomes available.

Language packs are available for some products on all supported operating systems except macOS.

webMethods products support their database components on all platforms on which the RDBMS vendor supports the RDBMS. Unless otherwise stated, all webMethods products include the client component of the DataDirect Connect JDBC 6.0.0 driver.

The JDKs listed on the "Delivered JDKs" page are part of the 10.7 release delivery.

Unless otherwise stated, all products support only the application server that is included with the suite. For additional application server support, please contact your Software AG representative.

Unless otherwise stated in the Software AG product documentation, Software AG encourages installing the latest service packs, patch-bundles, and fixes for the supported operating systems and products, if recommended by the respective vendor. Please report defects resulting from third-party fixes, patches, and service packs directly to the vendor.

Unless stipulated in a special arrangement, Software AG supports software operation only on the supported Linux distributions mentioned in this document. You can run Software AG products on other Linux distributions. If they encounter an issue that might be related to Software AG products, Technical Services might ask the customer to reproduce the issue on the supported Red Hat or SUSE distributions that are supported before analyzing the issue further.

Software AG tests its software against specific versions of operating systems and supported products (RDBMSs, JDKs, browsers, application servers, directory servers) and not specifically against all possible combinations of patches, fixes, and hardware that might comprise a platform. Therefore, Software AG might not use the exact same versions of fixes, patches, and service packs for operating systems and supported software products when troubleshooting a customer issue.
