	Universal Messaging Server & Client
Amazon Web Services Amazon EC2	x
Docker Docker 1.6.0 and higher Docker Compose 1.3.0 and higher	x x
VMWare ESXi 5.0 and higher	x

Support for virtualization software requires the use of one of the supported OSs as the VM guest OS or Docker base image

Amazon EC2 is only supported with Windows 2012 R2 (SPx) 64-bit, Red Hat Linux 6.x (x86) 64-bit and Red Hat Linux 7.x (x86) 64-bit

Users must follow VMware best practices for guest operating systems. In particular, users of Linux guests should be aware of VMware KB Article: 1006427

http://kb.vmware.com/selfservice/microsites/search.do?language=en_US&cmd=displayKC&externalId=1006427

Software AG's policy for supporting virtualized environments is described by the "Virtual Machine Support" section at the following link:
