

Client and Server Examples for z/OS IMS BMP

No special IMS BMP examples are delivered.

The delivered *client* examples for z/OS batch can be used as a basis for use in BMP mode, but they have to be adapted.

The delivered *server* examples for z/OS batch can also be used in BMP mode. See *Client and Server Examples for z/OS Batch*. Using IMS PCB pointers to access IMS databases in this context is described in *IMS PCB Pointer IDL Rules* under *Using the COBOL Wrapper for IMS BMP (z/OS)*.
