

# Message Class 0010 - EntireX ACI - Commands to Server

This class is valid for servers only and indicates that the server received a command. These messages have the format:

0010nnnn

where 0010 is the message class, and

nnnn is the message number in the range 0000-9999.

## Overview of Messages

00100022 | 00100050 | 00100051

---

### 00100022 Attach Service required

**Explanation** This is not an error, but a notification that an attach service is required. In order to distinguish between a normal RECEIVE (including user data and the like) and an attach manager notification, the latter does not end with a 00000000 return code. In addition to the error code, a data structure in the receive buffer provides more information, for instance, which server to start.

**Action** No user action is required, the attach manager has to start a server.

### 00100050 Shutdown IMMED required

**Explanation** The administrator has requested an immediate shutdown, the only operation permitted is DEREGISTER with the option IMMEDIATE.

**Action** No user action is required; the shutdown IMMED response means that the server no longer exists.

### 00100051 Shutdown QUIESCE required

**Explanation** The administrator has requested this server to be shut down, the only operation permitted is DEREGISTER with the option QUIESCE.

**Action** Perform a DEREGISTER with option QUIESCE.
