

# Message Class 2007 - IDL Extractor for PL/I

This section describes error messages of the IDL Extractor for PL/I.

The messages have the format:

2007nnnn

where 2007 is the message class, and

nnnn is the message number in the range 0000 - 9999

## Overview of Messages

|          |          |          |          |          |          |
|----------|----------|----------|----------|----------|----------|
| 20070003 | 20070009 | 20070011 | 20070012 | 20070030 | 20070031 |
| 20070032 | 20070033 | 20070034 | 20070035 | 20070036 | 20070037 |
| 20070038 | 20070039 | 20070041 | 20070042 |          |          |

---

### 20070003      **Self-referencing structure**

**Explanation**      Direct or indirect self-referencing structure definition - not supported.

**Action**              Check source code.

### 20070009                      **Unexpected object**

**Explanation**                      Internal error.

**Action**                      Contact Software AG support.

### 20070011                      **Parsing error**

**Explanation**                      Insufficient or not allowed input data.

**Action**                      Check source code.

### 20070012                      **Cannot load file**

**Explanation**                      The specified file could not be loaded.

**Action**                      Check file name and path.

|                    |   |
|--------------------|---|
| <b>20070030</b>    | <b>Nested exception</b>   |
| <b>Explanation</b> | Other component throws an exception.  |
| <b>Action</b>      | Check documentation of encapsulated exception.  |
| <b>20070031</b>    | <b>IMS file not found</b>   |
| <b>Explanation</b> | Cannot load file which contains the IMS parameter.  |
| <b>Action</b>      | Check path and file name.   |
| <b>20070032</b>    | <b>Attribute is not supported</b>   |
| <b>Explanation</b> | The attribute of the parameter is not currently supported.                                      |
| <b>Action</b>      | Check source code.  |
| <b>20070033</b>    | <b>Size is not supported</b>  |
| <b>Explanation</b> | The size of the parameter is not currently supported.   |
| <b>Action</b>      | Check source code.  |
| <b>20070034</b>    | <b>Print character is not supported</b>   |
| <b>Explanation</b> | The print character in a PICTURE data description is not supported.                             |
| <b>Action</b>      | Check source code.  |
| <b>20070035</b>    | <b>Precision is not supported</b>   |
| <b>Explanation</b> | The precision of the parameter is not supported.  |
| <b>Action</b>      | Check source code.  |
| <b>20070036</b>    | <b>Precision of fractional digits is not supported</b>  |
| <b>Explanation</b> | The precision of the fractional digits of the parameter data type declaration is not supported. |
| <b>Action</b>      | Check source code.  |

|                    |  |
|--------------------|--|
| <b>20070037</b>    | <b>Procedure not found</b>   |
| <b>Explanation</b> | No procedure statement in source code found.   |
| <b>Action</b>      | Check source code.   |
| <b>20070038</b>    | <b>Dimension is not supported</b>  |
| <b>Explanation</b> | The dimension is not supported.  |
| <b>Action</b>      | Check source code.   |
| <b>20070039</b>    | <b>Declaration is not supported</b>  |
| <b>Explanation</b> | The declaration is unsupported.  |
| <b>Action</b>      | Check source code.   |
| <b>20070041</b>    | <b>Procedure without parameter is not supported</b>                                      |
| <b>Explanation</b> | The procedure has no parameters, the Software AG IDL does not support this kind of call. |
| <b>Action</b>      | If possible, add a dummy parameter to the procedure in the PL/I source code.             |
| <b>20070042</b>    | <b>Unaligned is not supported</b>  |
| <b>Explanation</b> | The unaligned attribute is unsupported.  |
| <b>Action</b>      | Check source code.   |
