• Summary File (CSV) of Trace File Analysis

## **Summary File (CSV) of Trace File Analysis**

Every time the business process activities are extracted, a CSV file is created summarizing the extraction process/contents. This file is created in a newly created directory called "AnalysisSummary" in the application root directory. The CSV file is called "AnalysisSummary\_<timestamp>.csv".

## **Every line includes the following:**

Parameter name
Trace File Name
Output File location
Activity entity Name
Start time
End time
ProcessId
ActivityProcessor
Name
DisplayName
ProcessStepId
PreviousStepId
User defined \$i
