| 2. Quick Start Guide for Zementis Standalone Server | 2 |

Chapter 1. Quick Start Guide for Zementis Integrated Server

- After Installation, Zementis Integrated Server will be started automatically.
- By default the port number is 9083.
- The Web Console can be accessed via <http://localhost:9083/adapaconsole>.
- The REST API can be accessed via <http://localhost:9083/adapars>.
- The SOAP API can be accessed via <http://localhost:9083/adapaws>.
- The user name is `Administrator` and the password is `manage` by default.
- Please consult the Zementis Deployment Guide and Zementis Solutions Guide for more details.

Note

If port 9083 is occupied, Zementis Integrated Server will chose a different port. You may find the correct port by looking at the file name digits of file `com.softwareag.catalina.connector.http.pid-9083.properties` in directory `SoftwareAG/profiles/CTP/configuration/com.softwareag.platform.config.propsloader`.

Chapter 2. Quick Start Guide for Zementis Standalone Server

- After Installation of Zementis Standalone Server, all documentation and binaries will be located under the `Zementis/adapa-app` folder of your installation directory.
- Follow the instructions in the Zementis Deployment Guide located in the `Zementis/adapa-app/documents` sub-folder to setup Zementis Server.
